

16.) Use of cameras, including cell phones and other recording devices, is restricted in Repsol Place swimming pool.

Written approval must be given by Manager prior to any pictures or recordings.

This is due to the freedom of information and protection of privacy act. It is common practice for pools to restrict cameras on deck.

17.) We have zero tolerance for abuse, dangerous or criminal behaviour.

This is to keep our patrons and staff safe. Please respect yourself and others at all times.

The staff thank you for taking the time to observe the rules & guidelines at Repsol Place pool.

Please feel free to call or email with any questions or concerns.

Pool Rules

A Lifeguards Role

Did you know each lifeguard must complete over 100 hours of training in incident prevention and emergency training? A lifeguards main role around the pool is incident prevention. A lifeguards job is to enforce rules of the facility. Most rules are found on signage around the pool area.

Respect your lifeguard,

they care about your safety.

1.) Please take a cleansing shower before and after pool use.

This is a public health regulation .

2.) Children under 8 must stay within arm's reach of a responsible person 13 or older at a ratio of 1 adult to 5 children under 8.

This is recommended by The Lifesaving Society .

3.) Diving is permitted in the deep end only. *Shallow water diving is dangerous and could end up in paralyzation or death.*

4.) Two whistle blasts = stop and pay attention for further instruction.

This is used by lifeguards to get peoples attention . The pool can be too loud at times.

5.) One whistle blast = **Emergency CLEAR POOL.**

In the event that there is an emergency that requires lifeguards to clear the pool. Please respond quickly when you hear 1 whistle blast ,get to the edge of the pool and exit immediately.

6.) Please walk on deck and in change rooms.

The deck is slippery, running may cause injury.

7.) Children 6—12 yrs are required to complete The Lifesaving Society swim test before entering deep end without lifejacket/PFD.

(25m on front & tread water for 30 sec. *This is recommended by the Lifesaving Society, for your safety.*

8.) Any person who is incontinent and children under 3 yrs old are required to wear a swim diaper.

This is to prevent pool fouling which can be very costly and time consuming, and results in pool closure.

9.) No food allowed on deck.

This is a public health regulation.

10.) No glass allowed on deck.

Clean up is extremely difficult with broken glass.

11.) Play safe, don't push others into pool.

This is because a person could be seriously injured by the edge of the pool.

12.) Listen to your lifeguard.

They do their best to explain and enforce rules as professionally as possible. Please ask questions if you are unsure of facility rules.

13.) Everyone is to keep their ears out of the whirl pool at all times.

Submerging your ears in this pool may cause an ear infection.

14.) No shoes on deck or in change rooms.

This is in place so our pool water is not contaminated by outdoor parasites.

15.) No one is to enter the pool, whirl pool or sauna until a lifeguard is on deck and ready to guard.

This is a safety/liability issue.
