News Release

Rec Complex Closure- UPDATE Feb 15th, 2018

Edson, Alberta, February 15th, 2018 – The Edson and District Recreation Complex remains closed to the public.

Preliminary test results confirm asbestos in the golf pro shop and foyer areas, as well as in the curling arena and utility rooms. As such, the building remains closed to public and staff. The Town of Edson is reviewing the reports as they come in, and working on an action plan for the facility. Administration is also working with Occupational Health and Safety towards a plan to get limited access to the building for the removal of public items.

There will be more information released as it becomes available.
